

Vishnu Rohith B

Salem, Tamil Nadu / b.vishnurohith@gmail.com / +91 93427 22124 / LinkedIn / GitHub

Summary

Entry-level Software Developer with hands-on experience through an SDE internship and full-stack projects. Strong foundation in data structures, backend development, and cloud deployment. Fast learner who adapts quickly to new technologies and delivers production-ready solutions.

Skills

- **Programming:** C++, Java, SQL
 - **Full-Stack Development:** React.js, Next.js, Tailwind CSS, Node.js, Express.js
 - **Databases:** MongoDB, Pinecone
 - **Cloud & DevOps:** Azure Cloud, Azure DevOps, GitHub, CI/CD Pipelines
 - **Automation & AI:** n8n, Workflow Automation, LLM Integration (Gemini)
 - **CS Fundamentals:** Data Structures & Algorithms, Agile & Scrum
-

Education

Sri Krishna College of Technology

Bachelor of Engineering – Electronics and Communication Engineering

Expected Graduation: May 2026

CGPA: 7.59 / 10 (till 6th semester)

Experience

SDE Intern – CodeSizzler

Salem, Tamil Nadu | Apr 2024 – Nov 2024

- Contributed to the development of **HackersDock**, a Learning Management System used for internal training and assessments, using React, Node.js, and Tailwind CSS
 - Built and maintained CI/CD pipelines and deployment workflows using Azure Cloud and Azure DevOps
 - Collaborated in Agile sprints, managing tasks and source code using GitHub and Azure Boards
 - Rapidly learned new tools and frameworks, delivering stable, production-ready features within short development cycles
-

Projects

EcoVate (MERN Stack) – [Live Site](#) | GitHub

- Built a full-stack web application with authentication and form handling
- Deployed and maintained frontend and backend using modern cloud platforms
- Took complete ownership from development to deployment

Personal Portfolio (Next.js) – [Live Site](#) | GitHub

- Developed a responsive portfolio website using Next.js and Tailwind CSS
- Enhanced user experience with dark mode and smooth animations

Email-Based Calendar Automation (n8n + AI) – GitHub

- Designed an automation to identify event-related emails and extract key details
 - Integrated Gemini AI to summarize content and generate structured data
 - Automated Google Calendar event creation via API integration
-

Certifications & Continuous Learning

NPTEL – Data Structures and Algorithms Using Java

Microsoft Learn – Azure Fundamentals

- Cloud Concepts
- Azure Management and Governance
